Hi, my name is Sean Mize, and I understand how you feel.

Two years ago, when I first started my online business, I wasn't sure exactly how to create long term residual income like what I create now with my coaching business.

In fact, when I first started in August of 2006, my first month I only generated \$125 via a few affiliate sales. It took me 5 months to develop my first coaching program in January of 2007, and my income shot to \$5540 that month, after adding the coaching program.

Through the course of the next 7 months, I continued to hone and improve my coaching program and my sales methods, so that in August of 2007, I generated \$15,347, mostly from coaching income.

This was a difficult and trying time, as I made many mistakes and lost countless income as a result, not knowing exactly what to do and how to do it.

But the thing is, now I have "cracked the code" to creating and selling coaching programs, both online and offline.

So...what I have done is taken all of the information that took me nearly 2 years to perfect, am revealing it month by month in my exciting new membership:

Sean, What is This Powerful Coaching Program Going to Cost Me?

First of all, what is this program worth to you?

The formula I teach in this program has taken me literally 2 years and over \$70,000 of trial and error to perfect in my own business. In fact, clients pay me as much as \$1000 per hour and \$4000 to \$7000 for complete strategies for their own coaching businesses. And if I were to prepare this program just for you, the price would be around \$5500.

However, I have specially designed this monthly membership program so that multiple clients can gain the benefits of achieving their coaching goals.

I could easily sell this monthly membership for \$200 - \$400 per month.

But I want to make this a simple choice for you, so I have decided I am going to allow the first 25 charter the lowest price possible, just \$77 per month for everything.
